Quality Policy

Being a quality conscious organization, we pay utmost significance towards maintaining high quality standards in our products and policies. The range made available by us is sourced from most trusted and reliable vendors after scouring the market. Excellent quality yarns and threads are used by these vendors in the manufacturing process by employing latest machines following industry set guidelines. Moreover, a sincere team of quality controllers is appointed by us to scrutinize the procured range. These experts rigorously inspect the products on certain well-defined parameters of quality in order to rule out every possibility of flaw. Following are the parameters on the basis of which our products are tested:

Skin-friendliness

Dyeing & bleaching ability

Tear resistance strength

Texture

Pattern

Finish

Client Satisfaction

Being a client-centric organization, we strive to maximize the satisfaction level of our esteemed clients in the best possible manner. For this reason, we make sure that superior quality products are offered to clients at market-leading prices. The range we offer is sourced from most trusted vendors of the market who use excellent quality material in the manufacturing process.

Our team of procuring agents maintain cordial relations with clients to understand their variegated requirements and cater to them accordingly. Customers can also avail our range in various colors, designs and patterns. Furthermore, we make sure that the consignments are timely delivered at clients' destination through our expansive distribution network. Due to these reasons, we have become the prime choice of our customers spread throughout the country.

Vendor Base

We owe it to our reputed vendor base, the appreciation that our range receives in the textile industry. Listed amongst the leading traders and suppliers, we have conquered the domestic markets. Vendors with whom we are associated make use of high-grade yarns and threads to manufacture the offered product-line. The procuring agents hired by us conduct variegated researches and market surveys to select these vendors. Our vendors are capable of supplying the products in least possible time without compromising the quality. Following are some of the qualities, due to which our vendors are the prime choice of various traders:

Affordable prices

Approved Testing Parameters

Large product-line

Transparency in business dealings

Quality-approved products

Attractive collection

Excellent track record
